Subject: 2023-2024 Proposition 4 - Appropriation Limitation

Your district needs to calculate and adopt the new tax spending limit for FY 2023-24 in accordance with the provisions of the spending limitation legislation implementing Proposition 4 (the 1979 Gann Spending Limit Initiative). Government Code Section 7910 requires that: "... the governing body of each local jurisdiction to establish appropriation limits by resolution for the following fiscal year at a regular or special meeting."

The district's new limit for the 2023-2024 year will be calculated on the basis of the prior year's limit increased by a growth factor. The growth factor results from combining the change in Per Capita Personal Income and the change in population for your district (as certified by the State's Department of Finance) or the change reported for "unincorporated areas" for our County.

The change in the "cost of living" factor (Per Capita Personal Income) has been reported to be 4.44% and reported change in population in the County's unincorporated areas to be a decrease of -.38%. Therefore, the ratio of change to be applied to last year's limit is:

$$1.0444 \quad (X) \quad 0.9962 \quad = \quad 1.0404$$

Attached is a sample format for the required "NOTICE OF PUBLIC HEARING" and a sample resolution (which includes the calculation formula).

NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that a public hearing will be held on June 8, 2023 at the hour of 4:00pm At Lake Valley Fire Station 7, 2211 Keetak St, South Lake Tahoe, California, for the purpose of establishing, by resolution, the appropriation limits for the 2023-24 fiscal year for the Lake Valley Fire Protection District as described in article XIII B of the State Constitution. The proposed appropriation limits are \$10,273,092.71. At said hearing the Lake Valley Fire Protection District will consider all comments by interested persons.

Lake Valley Firefighters Association Local 4409

Greetings Board of Directors,

We were approached by the Fire Chief a few months ago as to our thoughts on potentially hiring Firefighter/EMT's. We have historically required a Paramedic license to be hired or have required new hires to acquire one in a reasonable time. The chief asked for consideration on the subject to allow the hiring of Firefighter/EMT's. He explained he would like to incentivize any EMT's potentially hired to become Paramedics. We, of course, support the chief in his efforts to increase staffing and understand the difficulties in recruiting. We voted affirmatively to the hiring of EMT's and adopted a new entry-level wage for the position. We hope any EMT's hired will proceed to become paramedics as we believe this is an important standard of care we keep here at Lake Valley.

We will be drafting a side letter with an agreed upon entry level rate and subsequent steps for Firefighter/EMT.

The district recently tested a batch of Firefighter/EMT candidates, and several members of the Association assisted in the process. We look forward to the outcome of the process.

As a follow-up to last month and the process of finding an administrative assistant, we would like to officially welcome Kayla Galvan to the Lake Valley family. We are lucky to have her.

As always, thank you for your time and dedication to this district.

Respectfully,
Matt Nerdahl

To the Lake Valley Fire Protection District Board of Directors,

Greetings again from your Lake Valley Firefighter Foundation Board. Hopefully this letter finds everyone to be well. The Lake Valley Firefighters Foundation as of 06/13/2023 has no new items to report. No meetings have been held with potential to hold another next month. Fundraiser event planning has been ongoing with no finalized dates and donations are still coming in. As a reminder the Foundation has purchased new T-shirts which are for sale so please extend the word to anyone interested in purchasing. As we go into the Summer season we hope to get more engaged with the community during outdoor events and continue to promote public health/safety awareness.

Sincerest regards,

FF/Paramedic Benjamin Booker

Monthly Fitness Challenge- June 2023

This challenge is to be completed while on duty at Station 6, or Station 7. This is a non-punitive fitness challenge that is relative to you and you only. These challenges have the potential to strike up some fun competition, though that is not the intention of the program or the challenge itself. Cooperation and participation in the challenge are the key ingredients to our health and wellness program and our longevity as service personnel. Please contact me if you have any ideas or suggestions for further challenges or questions on the challenge that follows. Please participate or ask me for suggestions on scaling so you can still participate.

This month you are to complete the **Pack Test**

The Pack Test is covering the distance of 3 miles in 45 minutes or less and is to be completed while carrying 45lbs. Load your wildland pack up and take off with your crew and have fun. We've all done this one before so lets do it again and be ready for this years fire season.

Write your names on the board if you completed it and then pat yourself on the back.
